INTRODUCTION OF KONG MING LANTERN

- Kongming lantern is a traditional lantern originating from China, also known as sky lantern or Kongming lantern. It is made of tissue paper and is usually round or oval in shape, with a candle or torch inside. When the torch is lit, the sky lantern will generate hot air currents, causing it to expand and float.
-
- Kongming lanterns are often used to celebrate holidays, commemorate special occasions or pray for blessings. People believe that by writing their wishes on the sky lanterns, lighting them and letting them fly, they pray that their wishes will come true as the sky lanterns fly. In China and other Asian countries, Kongming lanterns are often used to celebrate important festivals and celebrations such as New Year, weddings, and birthdays.

LEARNING GOALS

- 1. In-depth understanding of the historical origins of the Kongming Lantern and its roots and inheritance in Chinese culture
- 2. Understand the meaning and hardships behind the transmission of Chinese culture from generation to generation, and explore young people's views on traditional culture
- 3. Let people feel the charm of Chinese culture

Inspiration for this project

- Comparing teenagers' understanding of Kongming Lanterns in different regions
 - My experience watching Kongming lanterns fly into the sky
 - Learn more about traditional Chinese culture
- 
- 

Product Goals

1.

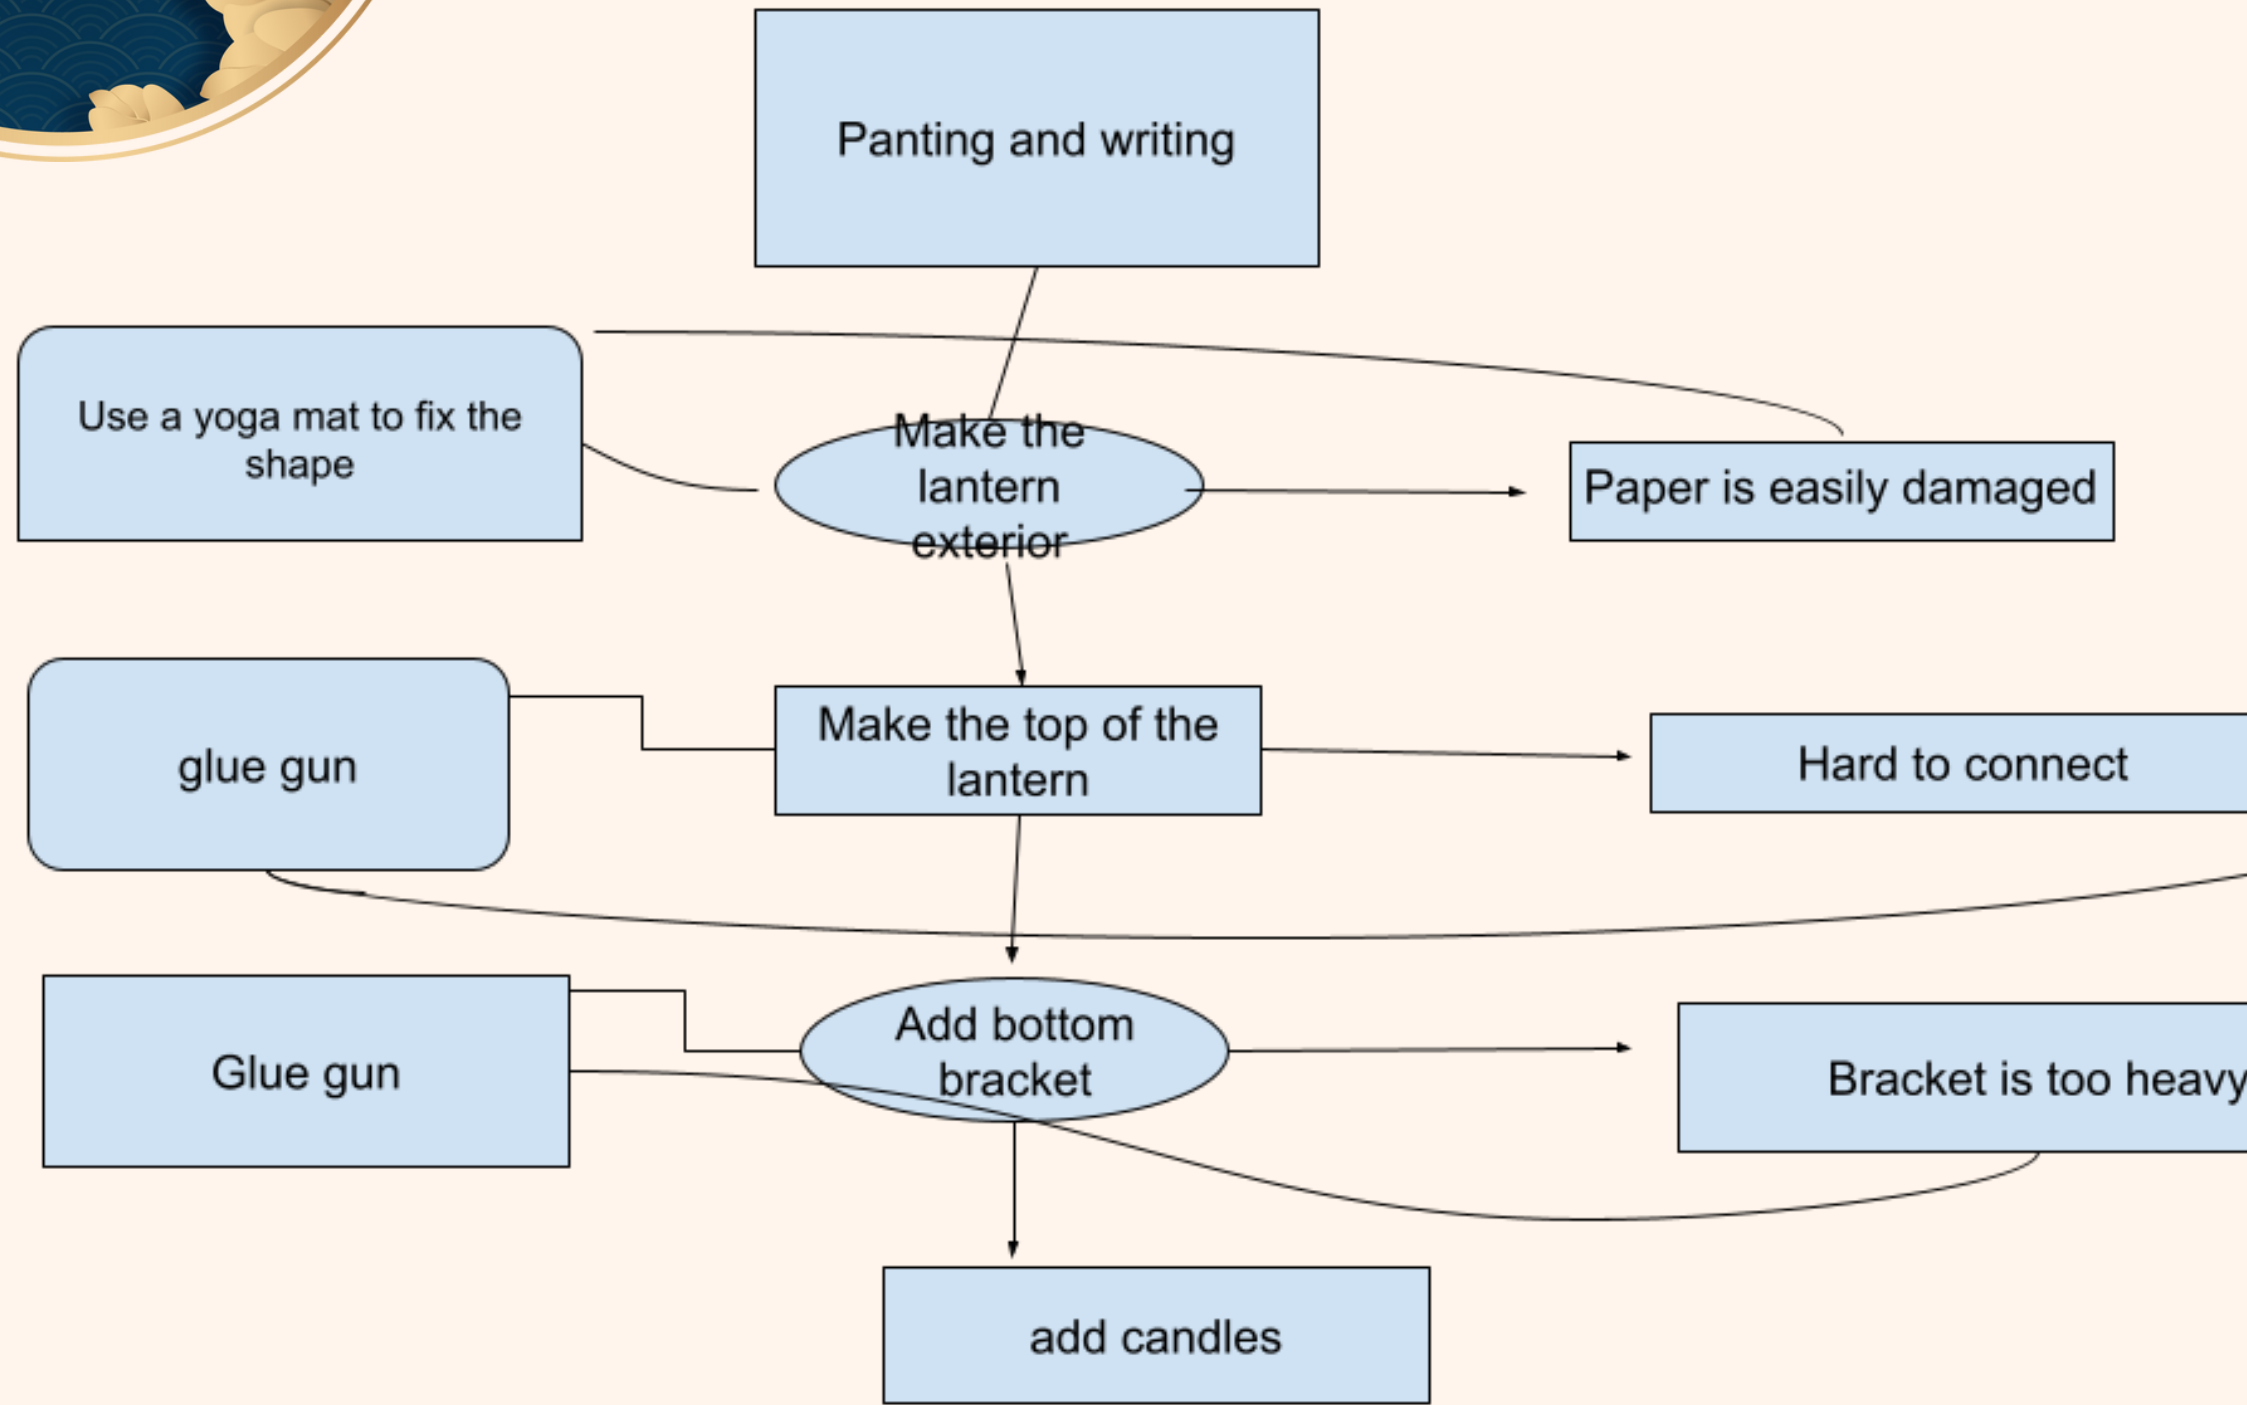

Make a charming lantern to let people feel the charm of traditional Kongming Lanterns

2.

Add some paintings about other cultures to the lantern

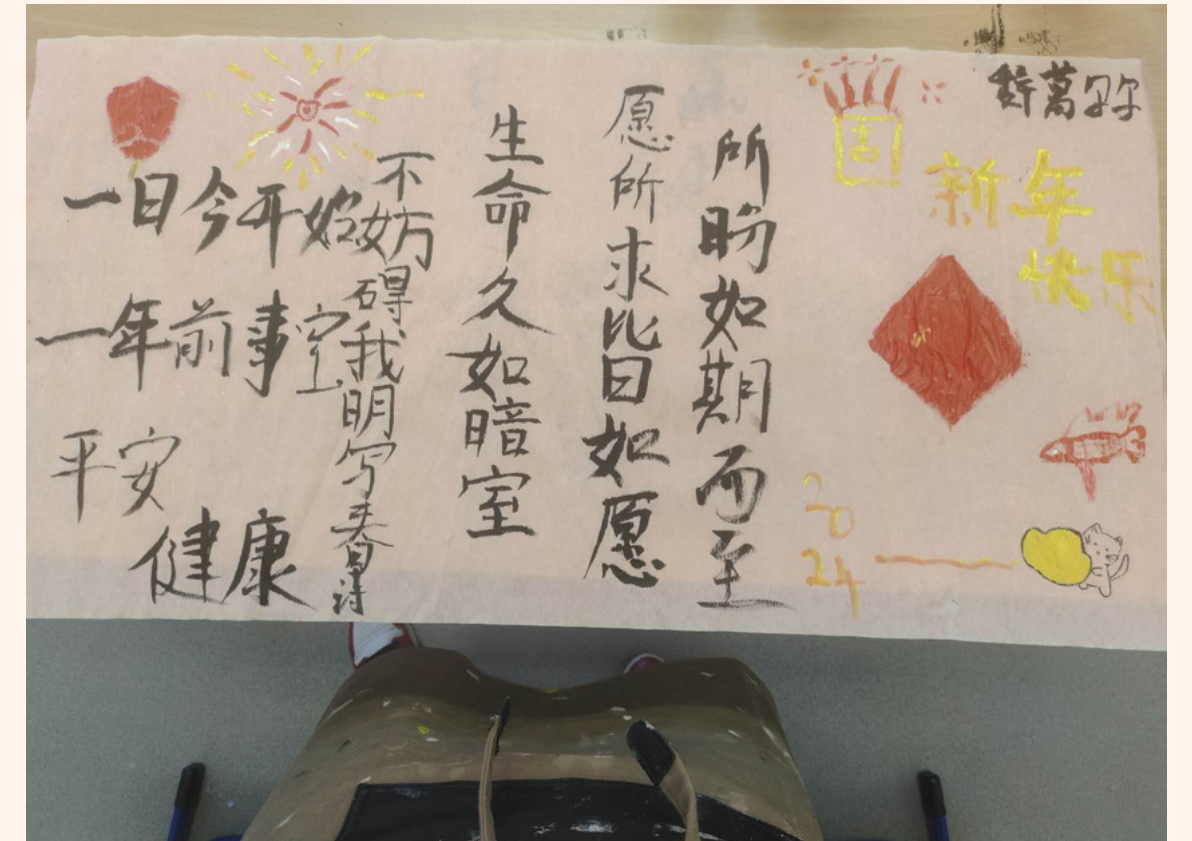

biggest chanlleges

How successful was it?

REPORT

I completed the entire report excellently

PRODUCT

My Kongming Lantern is finished. I successfully added some other traditional cultural writings and pictures to it.

THANK YOU FOR LISTENNING !

Any questions?
